Here you will find detailed information regarding the training course:

1. Training Course Information.

“WordPress is an online platform that can be used with educational purposes and as a support tool for classes, in which teachers can create and upload content for their students.”

Training Course: CREATING EDUCATIONAL BLOGS AND WEBSITES WITH WORDPRESS

Course Code: LC-----

Program: Digital School (Erasmus+)

Venue:

Address:

Dates:

Duration: 50 hours (7 days).

Training fee covered: 100%

Special instructions: 100% presence is required.

Preliminary requirements: Internet knowledge.

Additional resources available: computers, Internet connection, digital projector, speakers, tutors, online platform with supporting materials, papers, pens.

Methods and schedule for evaluation: This training course will follow a Non Formal methodology in every domain, in order to promote the interaction between students and trainers as well as between students themselves.

Different methods will be developed within the in-person sessions, giving special attention to the Case method and the Interrogative one.

Moreover, students will work on the Inercia Digital's online platform. It will be useful to download the learning and supporting materials, to participate in debate forums, to ask doubts, to interact with other students, to complete the required tasks for evaluation, and to do the final theoretical questionnaires. The students will have access to the online platform at any moment, 24/7.

In case you are dissatisfied with any aspect of our services or you would like to make any suggestion for improvements, please feel free to contact with Inercia Digital at the e-mail training@inerciadigital.com to check our complaints procedure.

Evaluation:

- *Theoretical:* The wide theoretical knowledge will be evaluated at the end of the course with a questionnaire that will be done on the online platform. The theoretical evaluation is the 40% of the final mark and it is compulsory in order to pass the course.

- *Practice:* This training course is based on to the Continuous Assessment. Therefore, the students will participate on the debates and sessions planned. The participation and realization of the session's tasks will be the 60% of the final mark and it's compulsory in order to pass the course. The tutor will write every evaluation of the sessions on the online platform.

Objectives of the Course: The objective of the course is to familiarize teachers with Wordpress as an educational tool in order to create blogs and websites to use them in class or as a support tool for their students to work at home.

Specific objectives of the Course:

- Create a blog and a website for educational purposes,
- Manage the aspects of the blog as well as its content,
- Keep updated the content of the blog in real time,
- Share the blog and the content with their colleges or students.

Learning outcomes:

- Participants will learn about the principles and the importance of creating and using of blogs and web pages in order to make the educational process more interesting,
- Participants will be taught the critical aspects for a web project planning,
- Participants will become familiar with WordPress blogging platform, which helps teachers to publish, update and maintain in real time course materials that are relevant for the students' educational needs,
- Participants will learn how to customise their blogs, as well as manage their own content and share it with their partners,
- Participants will learn how to provide the students with basic notions in relation to the developing trends of these platforms.

The course also includes this online activity that will be daily developed on the online platform.
