OVERVIEW OF MECHANICS

● **Experience history with a twist:** The perspectives of Gods, personalized virtues and vices are different from those of mere mortals in the spirit world we've built inspired by archetypal stories, western philosophy and core principles which the modern western society is built on: peace, democracy, rule of law, freedom, tolerance, pluralism - and we'll let you discover the rest.

● **Discover the forging of Europe & the birth of the western ethos:** Possess any mortal, be it a mere commoner or a great figure of history. Drive their actions and learn about their way of life, beliefs, fears and hopes, aspirations and ambition - and you may be surprised at what you uncover.

● **Assemble your troops & manage your resources:** Gain influence with the living and inspire them to build the great edifices we know today. Gather the souls of defeated vices and use them to summon allies from among those fallen throughout the ages. Augment them with godly essences for they will be your shield against the forces that seek your undoing - and you will witness how the bitterest foes can become allies.

● **By your hand shall history be made:** Be the invisible hand that forges Europe's history as we know it: from the ancient times of Classical Greece, throughout the glory of the Roman Empire, the tumult of its fall, the chaos that followed and the bonds formed in the Middle Ages. Your journey through Europe will only end once it's reborn - or will it?
